

BREAKOUT

Break the limits. Build the future.

01

What is Breakout?

The community

Breakout is PUCP's **student innovation and entrepreneurship community**.

- ▲ 15 active members · 3 areas
- ▲ Born out of the **University Innovation Fellows** program (Stanford d.school + University of Twente)
- ▲ Current semester: **26-1**

Surround yourself with people who have the same mindset. Events, alliances and capital — everything the traditional university path doesn't give you.

Why we exist

Purpose

Give students the **community, opportunities and capital** to break their own limits and **20x** their careers.

Mission

Connect students with the innovation ecosystem: real founders, tools and opportunities to build their own projects.

Vision

A generation driving startups, innovation and leadership — from PUCP to Peru and then to **Latin America**.

Essence

Break the limits.

How we're organized

Community & Experience

Events, community, culture.

Lead: Tatiana Mirella

Growth & Innovation

Growth strategy, content, new initiatives.

Lead: Robert Quispe

Partnerships & Programs

Alliances, programs, revenue.

Lead: Andrea Melo

15 students, 3 areas, one mission: bring the global ecosystem to campus.

02

What we've done

3 events · 1 semester

ZERO ONE

Feb 2026 · Breakout × Hult Prize

6 founders from Peru, Bolivia and Chile on the real process of building a startup.

OPEN WORLD (AXIS)

Apr 2026 · Breakout × Lead PUCP

Full Day at B100: global opportunities + building with AI in 90 minutes.

INVERTIR

May 2026 · Breakout

176 sign-ups · Diego Torres (Trii, YC) + 6 Harvard Business School students.

ZERO ONE — Building a Startup

Panel with founders **building right now**, not recounting a finished success.

- ▲ 6 founders from 3 countries: **Peru, Bolivia, Chile**
- ▲ Sectors: proptech, agritech, healthtech/AI, gig economy, mobility
- ▲ Speakers from Dommies, Agroglim, XRAI, Favorcito, Indies, Rodar
- ▲ Format: panel + Menti Q&A + post-event interviews

Bust early-stage myths · Motivate people to launch their idea · Spark the fire.

OPEN WORLD — AXIS Full Day

We co-organized the **8th track (Business & Venture)** of AXIS with Lead PUCP.

Block 1 — Global Opportunities

Okaren Cabrera (Harvard Aspire, Beca 18) and Arianna Yauri (DAAD, Huawei) — how to access the global ecosystem from Peru.

Block 2 — Build with AI

Freddy led a hands-on workshop: **a working prototype in 90 minutes with no coding.**

Mass outreach to **~21,000 students** across 7 PUCP faculties.

INVERTIR — the reality in Peru

First event under the **Breakout Capital** pillar.

- ▲ **Diego Torres**, co-founder & CEO of **Trii** (YC, Bancolombia, Harvard)
- ▲ Trii: ~500K users, ~US\$300M in assets, ~95% of new investment accounts in Peru in 2024
- ▲ **6 Harvard Business School students** as guests
- ▲ **176 sign-ups** in 3 days · 109 the day before (peak)
- ▲ Audience: 72% PUCP · 57% in the 23–27 age range

What keeps us going

Team

15 members active across 3 areas — lean and high-density.

Alliances

11 organizations in the pipeline: VCs, accelerators, programs and university clubs.

Global network

Stanford d.school · University of Twente · START Hack · YC-adjacent · Makers Fellowship.

Brand

Our own identity system (brandbook 1.0, presentation manual, breakout.lat site).

03

What we want to achieve

Three pillars for 2026

Community

Surround yourself with people who share the same mindset. Events that fill rooms and build real bonds.

Opportunity

Bring the global ecosystem to campus: YC founders, global VCs, international fellowships.

Capital

Breakout Capital — money and runway to experiment, fail and build.

What's coming

- ▲ **Breakout Capital** — investment and funding arm for student teams
- ▲ **Breakout for Schools** — expansion to high schools, opening the mindset before university
- ▲ **Hackathon AI** — next event of semester 26-1
- ▲ **Entrepreneurship Week** — annual, multi-day, multi-track format
- ▲ **Alliance pipeline** — 11 organizations (VCs, accelerators, programs)

Make things happen. We don't wait until everything is ready — we build it along the way.

Where we're headed

Today

The **top-of-mind** innovation community at PUCP.

Tomorrow

Other universities across **Peru**: replicate the model wherever there are students eager to build.

After that

Latin America. So any student with an idea has the community, the tools and the capital to make it real.

Break the limits. Build the future.

The new generation driving startups, innovation and leadership — **from PUCP to the world.**

Thank you.
